EDUCATION

B.Tech. in Information Technology — Odisha University of Technology and Research (2020 – 2024)
CGPA: 9.23 / 10 (OUTR Merit Scholarship Awardee)

PROFESSIONAL EXPERIENCE

Tata Consultancy Services (TCS) — Assistant System Engineer (Jul 2024 – Present)

Project: Nordea – Local Systems Sweden – L3 Cashpool Team

- Contribute to Java-based enterprise application development using Eclipse, Apache Ant, and Oracle WebLogic Server for deployment and testing.
- Manage CI/CD pipelines via Jenkins and JFrog Artifactory.
- Perform L3-level production issue analysis, including code debugging, configuration fixes, and applying security vulnerability patches.
- Monitor application performance using AppDynamics and create detailed technical documentation in Confluence.

Meliorist Developers — Web Developer Intern (Apr 2023 – Jul 2023)

- Developed and maintained the website and ERP platform for Youstad. (app.youstad.com).
- Utilized React framework for developing and Material UI for styling the platform websites.
- Integrated APIs and authentication using AWS Amplify libraries and implemented state management using React hooks.

PROJECTS

Ecommerce App

- Developed a full-stack e-commerce platform using React, Material UI, Node.js, and MongoDB with JWT authentication and Stripe API integration for secure, seamless payments.
- Utilized Redux for global state management, optimizing checkout flow and improving UI responsiveness.

Realtime Chat App

- Built a real-time messaging platform with React, SCSS, and Firebase, featuring authentication, presence tracking, and instant message delivery.
- Implemented Redux for efficient state management, ensuring consistent performance across concurrent user sessions.
